

legislation and I'm not sure that we have time to address all of it in the last few days of the session. I would hope that we we adopt some type of a study resolution and decide what the best location would be at a later date. Thank you.

PRESIDENT: Senator Cope.

SENATOR COPE: Mr. President, members. I would ask you to support Senator Kelly's bill. Grand Island is the location now of the academy, the training academy and they have done a very fine job there. They will continue to do so. It is a matter of time that they have to move from where they are and I think that this bill should be supported by the Legislature. Just because there is a close proximity between the proposed Training Center in Kearney and Grand Island for the police training center happens to be just a coincidence and there shouldn't be any connection between the two. So, please because of the matter of time that they have to move from where they are now support Senator Kelly's bill, 877.

PRESIDENT: Senator Bereuter.

SENATOR BEREUTER: Mr. President, is this on the bill itself? One question for Senator Kelly, if he would respond. Is this on the bill itself? Just one quick question. Now it is my understanding what you have done by the previous amendment that there is no General Fund fiscal impact for the coming fiscal year, is that correct?

SENATOR KELLY: (mike not activated) There is no fiscal impact in this year, 78-79 for LB 877. Absolutely correct. No fiscal impact.

SENATOR BEREUTER: Thank you Senator Kelly. I wanted to get that on the record. With that kind of advice I can support the bill this year.

PRESIDENT: Senator George.

SENATOR GEORGE: Thank you Mr. President, I have another question of Senator Kelly. Senator Kelly you said that there is no fiscal impact this year, but it would still mean that the City of Grand Island would probably so to speak, loan us some money and get started with the construction, correct?

SENATOR KELLY: Well the City of Grand Island, you have got to understand that there is one more step that has to come yet, is that after this bill is passed then the program gets put together then there has got to be an agreement between the state and the city to proceed further. Then at that time it takes approval of the Governor's office to approve that contract and also to go back into the budget procedure at that time. So, probably there is a good chance that there won't even be any fiscal impact in the following year Senator George.

SENATOR GEORGE: Thank you. I think that after Senator Cullan gave us the information I would like to have a second thought about this bill too. I am basically for the reconstruction of the Center, but eventually as Senator Dworak also pointed out we are right now making a decision of spending a little over six million dollars. Maybe we should, and I'm not asking to put
